Natural Disaster Relief and Recovery Arrangements State Disaster Relief Arrangements

Information sheet 2016-17

What is NDRRA?

NDRRA is a joint funding initiative of the Commonwealth and State Governments to provide disaster relief and recovery payments and infrastructure restoration to help communities recover from the effects of natural disasters and terrorist events. This program is managed on a whole-of-government basis by the Queensland Reconstruction Authority (the QRA).

Meaning of natural disaster

A natural disaster (or terrorist event) is a serious disruption to a community or region caused by the impact of a naturally occurring rapid onset event that threatens or causes death, injury or damage to property or the environment and that requires significant and coordinated multi-agency and community response.

(Extract from *Commonwealth Determination Section 1.1*)

NDRRA eligible disasters include:

- Bushfire
- Landslip
- Terrorist Event
- Cyclone
- Meteor Strike
- Tornado
- Earthquake
- Storm
- Tsunami
- Flood
- Storm Surge

Activation

In Queensland, the Minister for Police, Fire and Emergency Services is responsible for activating the NDRRA. The NDRRA activation relies on the damage, loss and personal hardship information provided by State and Local Government Agencies.

Activation of the NDRRA allows for eligible expenditure to be reimbursed by the QRA to activated State and local government agencies, in compliance with the Commonwealth Determination and the Queensland Guidelines.

NDRRA can be activated when:

- Collated eligible expenditure incurred by state and local government agencies on eligible relief measures exceeds the Small Disaster Criterion (2016/17 is \$240,000); and
- the event meets the definition of a natural disaster (refer definition above).

If an event does not meet the above criteria, the State Disaster Relief Arrangements (SDRA) may be activated.

Note: The *activation* of the NDRRA is not dependent upon the *declaration* of a disaster situation. A *declaration* of a disaster situation is a separate action and provides extraordinary powers for the protection of the public during a disaster situation under the *Disaster Management Act 2003*.

The Queensland Disaster Management Arrangements are based upon partnership arrangements between state and local government agencies. The declaration of a disaster situation and/or the activation of the Queensland Disaster Management Arrangements and/or the activation of the NDRRA are independent and are not interlinked or conditional, although they may occur for the same event.

Commonwealth/State Funding of NDRRA

For simplicity, the publicly acknowledged funding split is 75% Commonwealth, 25% State for Categories A, B and C. The funding split for Category D assistance is agreed to when the measure is approved.

Should there be any (unintended) inconsistencies between this information sheet and the Australian Government NDRRA Determination, the Queensland Disaster Relief and Recovery Arrangements Guidelines then those documents will take precedence.

Current as at 27 March 2017

The requesting agency will source information from local governments, industry bodies, Chambers of Commerce, primary producers, small businesses and “on the ground” observation from staff visiting the affected areas for each sector. The requesting agency will then review the information collated and if it meets the requirements as set by the Commonwealth, a Business Case will be drafted and forwarded to the QRA for review, then on-forwarding to the Department of the Premier and Cabinet. If endorsed by the Premier, it will be forwarded to the Commonwealth for approval by the Prime Minister.

Further information on the requirements for Category C activation is located in the Commonwealth Determination, Guideline 3.

Category D

Approval is by the Prime Minister and the Premier.

May be made available when the community is so severely affected by an eligible disaster that additional funding is required to meet particular circumstances of the event and where a gap or need for special assistance above and beyond the standard suite (Category A and B) of the NDRRA assistance arises.

If local governments identify a need for a Category D Extraordinary Special Assistance relief measure, they are encouraged to contact the relevant State Government agency. The State Government agency will collate and review the information and, if necessary, prepare a Business Case and forward to the QRA for review, then on-forwarding to the Department of the Premier and Cabinet. If endorsed by the Premier, it will be forwarded to the Commonwealth for approval by the Prime Minister.

Administrating Authority: Dependent upon the type of assistance made available.

State Disaster Relief Arrangements (SDRA)

The SDRA is an all hazards relief program that is **100% State funded** and **covers natural and non-natural disasters**. The purpose of the SDRA is to address personal hardship and community response needs for disaster events where the NDRRA is unable to be activated. SDRA relief measures for Personal Hardship Assistance Scheme and Counter Disaster Operations are the same relief measures that are activated under the NDRRA, as detailed above.

The SDRA is able to be activated when the Department of Communities, Child Safety and Disability Services identifies that local service providers have reached their capacity to provide a service to people identified as experiencing personal hardship as a direct result of a disaster event, or that there are no local service providers to assist in the event of a disaster.

The Director-General of the Department of the Premier and Cabinet (supported by the QRA) is responsible for activating and coordinating the delivery of the SDRA assistance measures.

Additional funding outside the NDRRA & SDRA could be made available by the Commonwealth to assist communities to recover, such as the Australian Government Disaster Recovery Payment (AGDRP) and the Australian Government Disaster Recovery Allowance (AGDRA).
